

PIG PRODUCTION INTERNSHIP

Belstra Milling and Belstra Group Farms are located in Northwest Indiana and offer a 12-week pig production internship that allows students to complete a summer program getting hands-on experience within multiple modern day swine production facilities. Over the course of the summer, gain experience within some or all of the following areas:

- heat checking/estrus detection
- feeding
- breeding via artificial insemination
- sanitizing stalls and pens
- assisting sows during birthing process
- newborn piglet care
- processing piglets
- castrating piglets
- weaning piglets

Selected candidates will be responsible for transportation to and from the internship. Weekly compensation for hours worked and some housing available. Be certain to apply early! This internship is a great opportunity for an enthusiastic student in agriculture looking to gain valuable experience within a growing industry. Please send cover letter and resume to Karla Romo at karlaromo@belstramilling.com to apply.
